

Nirala Jacobi, ND (USA) graduated from Bastyr University in 1998 with a doctorate in Naturopathic Medicine. She received her Bachelors of Human Health Sciences from Bastyr University in 1995. From 1998 to 2005, Nirala was a licensed naturopathic physician at the Yellowstone Naturopathic Clinic in Billings, Montana. Having practiced as a primary care physician, her specialties include hormone balancing, women's health, gastrointestinal disorders, chronic illness, and clinical detoxification. Nirala has been a mentor for numerous naturopathic medical students that have precepted at her clinic and she was honored for her contributions to the Bastyr Preceptor Program. Nirala was recently elected to the board of the Australian Register of Naturopaths and Herbalists (ARONAH)

Naturopathic Mentorship Seminar Series

Unique opportunity to learn from Brisbane's ONLY U.S. trained Naturopathic Physician.

Who should attend:

- recent naturopathic graduates
- naturopaths looking for clinical confidence
- 3rd or 4th year naturopathic students

Series 3

Women's health and menstrual disorders

What you will learn:

The seminar covers a wide range of common conditions seen in the naturopathic clinic. These include

- Premenstrual Syndrome (PMS)
- Dysmenorrhea
- Uterine Fibroids
- Polycystic ovarian syndrome (PCOS)
- Endometriosis

We will cover conventional and naturopathic assessment, common blood and functional tests, conventional and naturopathic treatments. Increase your clinical confidence and improve your patient outcomes by getting practical guidance from a US trained naturopathic physician. We will practice physical exam skills so please bring: stethoscope and blood pressure cuff, otoscope or pen light, massage table (1 per 2 students)
